COUNTRYLINK UPGRADES NARRANDERA COACH STOP

Wednesday, 22 October 2008

NSW Minister for Transport David Campbell today announced the completion of roadwork upgrades at Narrandera railway station.

Mr Campbell said the completion of the project will see CountryLink's coach stop return to the station.

"Local residents will welcome the return of the CountryLink coach stop," Mr Campbell said.

"The roadwork upgrades have improved access for coach services to and from the station and improved safety for drivers and passengers with better visibility of oncoming traffic.

"We'd like to take this opportunity to thank local customers for their patience during the roadworks that have enabled us to bring the coach stop back to the railway station.

"I know CountryLink has many loyal customers in the Narrandera district who will welcome this upgrade."

Mr Campbell said recent improvements to the iconic CountryLink XPT fleet would make the journey even more enjoyable for passengers travelling to CountryLink's destinations.

"CountryLink's XPT trains provide a safe and relaxing way to travel while sitting back in air-conditioned comfort," Mr Campbell said.

"CountryLink connects with the largest network of coaches in Australia to service almost every corner of NSW."
